Complementary Feed in a 1,8g sachet  
30 sachets per box

## SINEOMIXX VET sachets – Complementary Feed

SINEOMIXX® VET is a registered trademark of ORMENDES S.A.

### PRODUCT DESCRIPTION

#### a) Presentation

SINEOMIXX VET is a complementary dietetic feed intended for particular nutritional purposes for dogs and cats. Each pack contains 30 sachets. Each 1.8g sachet contains a palatable powder with a postbiotic complex and an additive that stabilizes the physiological digestion.

Formulated with postbiotic complex and gut flora stabiliser, SINEOMIXX VET is useful in case of risk of, during periods of, or recovery from digestive disturbance.

#### b) Ingredients

Maltodextrin, Yeasts inactivated, Isomalt, Inactivated bacteria and parts thereof (*Saccharomyces boulardii* SGSB01) 8,3%, Corn starch, Magnesium salt of stearic acid, inactivated bacteria and parts thereof (*Bifidobacterium animalis* ssp. *lactis* BLC1- LMG 23512/DSM 17741 1,6%, *Bifidobacterium breve* BIO6018 1,6%, *Bifidobacterium infantis* SGB03 1,6%, *Limosilactobacillus reuteri* BIO5454 1,6%), Lactose. ADDITIVES: Zootechnical additives: Gut flora stabilisers: 4b1707 *Enterococcus faecium* DSM 10663/NCIMB 10415 2x10<sup>11</sup> CFU/kg. Technological additives: E551b Colloidal silica.

SINEOMIXX VET, thanks to its formulation without added poultry derivatives, is also suitable for animals subject to a controlled diet.

### AVERAGE CONTENT FOR DAILY RATION

| Content  | Per sachet 1,8g                                |
|--|--|
| Probiotic (gut flora stabiliser additive)                                    |  |
| <i>Enterococcus faecium</i> DSM 10663-NCIMB 10415                            | 3,6x10 <sup>8</sup> CFU*                       |
| Postbiotic complex- sialidase-positive strains                               |  |
| <i>Saccharomyces boulardii</i> SGSB01  | 10x10 <sup>9</sup> inactivated microbial cells |
| <i>Bifidobacterium animalis</i> ssp. <i>lactis</i> BLC1- LMG 23512/DMS 17741 | 10x10 <sup>9</sup> inactivated microbial cells |
| <i>Bifidobacterium breve</i> BIO6018   | 10x10 <sup>9</sup> inactivated microbial cells |
| <i>Bifidobacterium infantis</i> SGB03  | 10x10 <sup>9</sup> inactivated microbial cells |
| <i>Limosilactobacillus reuteri</i> BIO5454                                   | 10x10 <sup>9</sup> inactivated microbial cells |

\*CFU: Colony Forming Unit

## **SINEOMIXX VET** sachets – Complementary Feed

### **ANALYTICAL CONSTITUENTS**

|               |        |
|---------------|--------|
| Crude Protein | 18,21% |
| Crude Fiber   | <0,1%  |
| Crude fat     | 4,24%  |
| Crude ash     | 3,59%  |
| Moisture      | 2,49%  |

#### c) Packaging

Each packaging contains 30 sachets of 1,8 g.

Packaging dimensions: 100x100x46 mm

Net weight 54g

#### d) Feeding instructions and recommended daily ration

Administer the product directly into the pet's mouth or mixed into the preferred feed considering 1 sachet for every 10 kg of live weight of the animal.

Recommended period of use: up to 4 weeks. In case of exclusive dry food diet, slightly moisten the food to allow complete ingestion. It is recommended to administer a balanced daily ration. Complete the daily ration with usual food. Always ensure fresh water is available.

### **WARNING**

Store in a cool and dry place, avoid exposure to localized heat sources or direct sunlight. The expiry date refers to the product unopened and properly stored. Dispose the product responsibly after use.
